Preface

Director's Message

Özyeğin University's world-renowned faculty have come together with the mission of preparing qualified professionals, and contributing to society and economy in Turkey. For this is a huge task that entails resources beyond the reach of a single academician, or a single faculty, or even a single university, we embrace/value a multi-disciplinary and institutional cooperation approach. In sharing our Research Catalogue with you, in other words, our R&D Centers, Industrialists, Public Organizations, Sectoral Clusters, Agencies, and other Universities, our goal is to emphasize the fact that we are a reliable stakeholder you can work together with on national and international projects.

Özyeğin University maintains its position as the youngest foundation university in the top 10% of the TÜBİTAK Entrepreneurial and Innovative University Index. Additionally, in the Entrepreneurial and Innovative University Index (EIUI) of 2022, our university ranked 9th overall, and it ranked 1st among all universities in the field of Intellectual Property Rights.

Our 2024 catalogue contains the fields of specialization, research interests, and contact details of research faculty at Özyeğin University. Prospective partner institutions and organizations are also invited to contact our Technology Transfer Office (TTO) or our Center for Entrepreneurship, which serve as an interface between our University and prospective partners.

Kind Regards,

Asst. Prof. İsmail Arı
Director of Knowledge, Technology Transfer and Entrepreneurship

ACADEMIC MANAGEMENT

Prof. Barış Tan **President**

Barış Tan received his bachelor's degree in Electrical and Electronics Engineering from Boğaziçi University in 1990. He continued his studies at the University of Florida and earned his M.E. degree in Industrial and Systems Engineering in 1991, M.S.E. Graduate Certificate in Manufacturing Systems in 1993, and Ph.D. in Industrial and Systems Engineering in 1994.

Upon completing his Ph.D., Dr. Barış Tan joined Koç University. He was promoted to Associate Professor in 1998 and Professor in 2002. While at Koç, he served as a professor of Business Administration and Industrial Engineering from 1994 to 2024. During this period, he served as Director of the Graduate School of Business (2002-2005, 2008-2010), Dean of the College of Administrative Sciences and Economics (2007-2013) and Vice President of Academic Affairs (2013-2021). On March 1, 2024, he joined Özyeğin University as a professor of Industrial Engineering and Business Administration. He was appointed as President on July 26, 2024.

His areas of expertise include the design and control of production systems, supply chain management, and stochastic modelling. Prof. Tan has an extensive body of work, with numerous international publications in these fields. He has served as an area editor and on editorial boards of various international journals. Prof. Tan is also actively engaged in national and international research and industry projects. He has earned recognition for his body of work by being the recipient of the Turkish Academy of Sciences Distinguished Young Scholar Award, the TUBITAK fellowship, the NATO Science Fellowship, as well as multiple best paper awards for his publications.

Prof. Barış Tan has also held visiting faculty positions at multiple universities worldwide, including the Harvard University Division of Engineering and Applied Sciences, the MIT Operations Research Center, the MIT Laboratory for Manufacturing and Productivity, the University of Cambridge Judge Business School, the University College London School of Management, and the Politecnico di Milano Laboratory for Manufacturing and Production Systems.

Prof. Tan has served and continues to contribute to advisory and management boards of various universities and institutions.

Prof. A. Tanju Erdem
Vice President for Academic Affairs

A.Tanju Erdem received a B.S. degree in electrical and electronics engineering and a B.S. degree in physics in 1986 from Bogazici University, Istanbul, Turkey.

He received an M.S. degree in 1988 and a Ph.D. degree in 1990, both in electrical engineering, from University of Rochester, Rochester, New York, USA. He was a member of the Research Laboratories of Eastman Kodak Company, Rochester, New York, USA, from 1990 to 1998, where he worked on various aspects of image and video processing. He has co-founded, and served until 2009 as the CTO, of Momentum, A.S., a 3D digital media technologies company established in Istanbul, Turkey, in 1998. He has served on the ISO-MPEG committee from 1991 to 1998. He was the Chair of the IEEE Signal Processing Society Turkey Chapter and served as an Associate Editor for Signal Processing: Image Communication during 2010-2014. He joined Özyeğin University in 2009, where he served as Head of the Computer Science Department during 2012-2014 and as Dean of the Engineering Faculty as well as Director of the Graduate School of Engineering and Science during 2014-2018.

Prof. M. İrşadi Aksun
Vice President for Research, Innovation and Impact

M. İrşadi Aksun received his B.Sc. and M.Sc. degrees in Electrical and Electronics Engineering from Middle East Technical University and his Ph.D. in Electrical and Computer Engineering from the University of Illinois at

Urbana-Champaign in 1990. Upon completing his Ph.D., he worked as a postdoctoral researcher at the same university until 1992. After his postdoctoral training, he joined the Department of Electrical and Electronics Engineering at Bilkent University, where he served until 2001. In 2001, Prof. Aksun joined the Department of Electrical and Electronics Engineering at Koç University. He served as the Dean of the Faculty of Engineering from 2004 to 2009 and as the Vice President for Research and Development from 2009 to 2021. He has continued to serve as a faculty member in the same department, with his tenure extending until September 2024. Prof. Aksun's research interests include electromagnetic field theory, computational electromagnetics and optics, optical and RF antennas and propagation, and nano-optics and plasmonics. He has received several prestigious awards, including the "TÜBİTAK Incentive Award" in 1994, "The Best Professor Award" from Bilkent University students in 2001, and the "TÜBİTAK Science Award" in 2007. He was elected as a principal member of the Turkish Academy of Sciences in 2011. He was appointed as Vice President for Research, Innovation and Impact at Özyeğin University as of September 1, 2024.
